Full-blooded, fine ones. A few for sale at \$2. A. W. KAYNAUGH, Nov-9-31

Pure water in clean vessels kept in the shade is a prime necessity in poultry management. One half the poultry cures would go out of business if this was the rule instead of the exception.

It cost no more to produce a thousand pounds of chicken than it does to produce a thousand pounds of beef or mutton. The chicken sells for the most money and makes the largest percentage of profit.

Free.
The latest county maps of Kentucky and Tennessee will be furnished free to the schools of Garrard Co., on application of teacher or School Trustees to R. E. McRoberts. 10-2-61

A large anti-trust tobacco factory is to be built in Louisville by J. W. Whitman and E. W. Russell, heretofore with the Continental Tobacco Company, and others. The concern is backed by heavy capital and its plant is expected to be in operation by January 1st, 1900.

For Sale, fourteen nice sugar yearling mules and nine two-year-old sugar mares broke to work. Will sell in pairs if desired.

British soldiers will eat American corned beef in the Transvaal, and it is already being furnished by Chicago packers. Orders for something like 1,000,000 lbs. were received in Chicago recently, 200,000 lbs. For more than a year the Chicago packers have been unable to supply the English government any large quantities of meat, owing to the cheaper prices which prevailed in Australia. Now it is believed, the supply from that quarter has been exhausted, and especially if war is declared between England and the Boers, our markets will be called upon to furnish "Tommy Atkins" with corned beef.—Drovers' Journal.

The total sales in the Louisville tobacco market last week were 550 hhds. against 1,000 hhds. for corresponding week of last year. Total receipts, 963 hhds. against 329 for corresponding week last year. Rejections last week were 445 hhds., 35 per cent. of the auction sales, against 30 per cent. of the preceding week. Of the total sales 972 hhds. were Burley and 572 dark tobacco. The Burley market this week has shown a little more regularity than prevailed last week. As a rule the bidding has been a trifle more steady and active than it was the first half of last week. Our report showed last week that the market closed Thursday stronger and more steady than it had been during the first half of the week. This week has about maintained Thursday's tone of last week. The condition of the offerings have not improved this week and prices have been discounted heavily for out of order packages. The offerings have been quite light and this ought to have stimulated better prices. Tuesday the offering was 36 hhds. of Burley and 17 of dark. Wednesday it was 293 of Burley and 51 dark.—Farmers' Home Journal.

PRICES TO CATCH THE EYE.

The Italian Fruit Seller Shows Much Shrewdness in Marking His Stock.

The Italian fruit seller shows his shrewdness as a business man in a small way by the prices which he puts on his wares. The fruit is arranged in tempting groups on his push cart, and each group is usually marked with a ticket, so that the pedestrian may know the prices without asking. Over a pile of plums may be seen the tiny sign: "Eight for nine cents." Now, says the New York Tribune, the average customer does not buy eight plums, and when he asks for one it is two cents, or two for three cents, and, as the vendor sells more lots of one than anything else, the eight for nine cents becomes a myth, and his stock averages nearly two cents apiece. Peaches that are marked 12 for 25 cents if sold in dozen lots would be fairly cheap, but one peach from the same pile always costs three cents, and as "two for five" is the popular sale in that class the lot which is advertised at 25 cents usually brings more than 30. In the orange season "eight for 25 cents" is a favorite price placed on the fruit, which is really sold for four cents apiece.

A bronzed Italian who has a regular route over which he sells fruit at all times of the year was asked: "Why don't you make prices for one or two, and not for eight and a dozen?"

"Eight for nine make ye look—den ye paze to fo' one," and he winked the other eye in a way that showed that his reputation for shrewdness was well deserved.

CANCER IS DEADLY!

Results Fatally in Nine Cases Out of Ten—A Cure Found at Last.

This fearful disease often first appears as a mere scratch, a pimple, or lump in the breast, too small to attract any notice, until, in many cases, the deadly disease is fully developed.

Cancer can not be cured by a surgical operation, because the disease is a virulent poison in the blood, circulating throughout the system, and although the sore or ulcer—known as the Cancer—may be cut away, the poison remains in the blood, and promptly breaks out afresh, with renewed violence.

The wonderful success of S. S. S. in curing obstinate, deep-seated blood diseases which were considered incurable, induced a few despairing sufferers to try it for Cancer, after exhausting the skill of the physicians without a cure. Much to their delight S. S. S. proved equal to the disease and promptly effected a cure. The glad news spread rapidly, and it was soon demonstrated beyond doubt that a cure had at last been found for deadly Cancer. Evidence has accumulated which is incontrovertible, of which the following is a specimen:

"Cancer is hereditary in our family, my father, a sister and an aunt having died from this dreadful disease. My feelings may be imagined when the horrible disease made its appearance on my side. It was a malignant Cancer, eating inwardly in such a way as to cause great alarm. The disease seemed beyond the skill of the doctors, for their treatment did no good whatever, the Cancer growing worse all the while. Numerous remedies were used for it, but the Cancer grew steadily worse, until it seemed that I was doomed to follow the others of the family. For I knew how deadly Cancer is, especially when inherited. I was advised to try Swift's Specific (S. S. S.), which, from the first day, forced out the poison. I continued its use until I had taken eighteen bottles, when I was cured sound and well, and have had no symptoms of the dreadful affliction, though many years have elapsed. S. S. S. is the only cure for Cancer.—Mrs. S. M. Idol, Winston, N. C.

Our book on Cancer, containing other testimonials and valuable information, will be sent free to any address by the Swift Specific Company, Atlanta, Georgia.
